

FUSION CURRENT RELEASE – FUSION 6 ESSENTIALS

CODE:

CS401

DESCRIPTION:

This course outlines the features that have been added to the recently released *Fusion6* software package. This course also provides hands-on training on these new features.

COURSE TOPICS:

- A look at all of the new features included in *Fusion6* with specific focus on:
 - o Selective checkout
 - o End of hole validation
 - o On-the-fly language selection
 - o Crystal reports viewer
 - o Column filtering by logging style

DURATION:

1.0 Days

LEARNING OUTCOMES:

Upon successful completion of this course, students will be able to:

- Identify the new features and describe the purpose of each
- Describe the steps required to properly implement the new features at their site

PREREQUISITES:

CS101 – Fusion Concepts

WHO SHOULD ATTEND?

This training course is designed for, but not limited to experienced Fusion users and/or database administrators who wish to update their knowledge of the features available in the *Fusion6* version of the Fusion Solution.
